

BACKGROUND CHECK and DRUG SCREEN

INSTRUCTION SHEET

You will need to have a clear background check completed while in your current program of study before you begin your time at WellStar.

Please provide the name of the company you used for your check in your completed learner packet.

We encourage use of the company Advantage Students. This is the emerging standard for many health institutions in the metro Atlanta area and may reduce the need to repeat the screening in the near future.

1. Go to <http://advantagestudents.com/>
2. Select "Student" from the top and click "enter".
3. Select "WellStar Health System" from the drop down menu
4. Select the package "background check and drug screen" learner.

It is suggested that you review your CBC (criminal background check), much like reviewing your credit reports, so mistakes or other issues can be addressed before hospitals make a determination of learner acceptance. If a background check is not clear, the learner can not begin their time with WellStar.

We look forward to working with you!
